

**UAM Motor Drive and Agitator AT**

Agitator AT

The Agitator AT can mix all types of different viscous liquids. The Agitator AT consists of a stirring kettle arm and an agitating driving unit. The kettle and stirring arm are made of stainless steel. The Agitator AT is used for stirring, agitating & beating all kinds of liquids, emulsions, suspensions and similar mixtures. The kettle can be supplied with double jacket for cooling and heating by water (optional). The agitator is suitable for screwing on directly to the UAM Motor Drive.
